# BUYERS' AND ADVERTISERS' GUIDE

We are happy that we are able, insofar as is possible, to place our advertisements in a preferential or strategic spot opposite a page of diocesan information in order to pinpoint our advertisers' products in the maze of close printing that a Directory necessarily involves. In this way, we think that the value of these products is more apparent and clear-cut.

This Directory, consisting of 30,000 copies, reaches the limits of the Archdiocese, a designated allotment going to each parish in the Archdiocese.

Often we receive telephone calls since our office has become an all-round information center, and we refer clients to the advertisers in the Directory. Maybe we have been a helpful source of reference for all parties concerned, for it is almost unbelievable that many have not profited through this medium. All in all, we are grateful to the many who make this publication possible.

Completely new arithmetic texts — new from the ground up — not a revision! Sound in method, appealing and challenging to pupils, and beautiful with glowing color. Based on leading courses of study (including diocesan syllabi and Guiding Growth in Christian Social Living) and the best of recent research.

# Chapel of Our Lady of the Airways

**h**aven for modern air travelers and the busy airport personnel is this Catholic Chapel at the Logan International Airport in East Boston. Constructed under the patronage of Archbishop Richard J. Cushing, this chapel, believed to be the first of its kind anywhere, offers to busy air travelers a quiet refuge for prayer and contemplation. Mass is celebrated daily and Sundays throughout the year.

The architects were Maginnis & Walsh. The modern furnishings, lighting and appointments are the work of Rambush Decorating Company. Electrical work was done by M. B. Foster Electric Company. One of the points of interest is the utilization of a structural column as a dramatic background for the altar and the Statue of Our Lady of the Airways.

The column has been tapered to give the appearance of an airplane wing. Seven bronze sanctuary lamps represent the Seven Gifts of the Holy Ghost with stylized doves in flight. Murals of the Stations of the Cross adorn the circular walls.

This unique chapel, with its subdued yet dramatic light effects, blends the traditional and modern in architecture and design.

*The Chapel of Our Lady of the Airways is but one example of the applications of modern lighting to achieve a desired effect. Boston Edison Company lighting engineers are available for consultation on any illumination problem. No obligation, of course.*

Pray's is a complete home furnishing store serving New England home makers since 1817.

IT'S A FACT...

Pray's contract division is the largest of its kind in New England, and each year serves hundreds of public and private institutions. We point with particular pride to the work performed by our organization in churches and educational establishments. Because we maintain a complete staff, we are in a unique position to supply and install carpeting, linoleum and tile flooring, and acoustical ceilings. A call to HAncock 6-5000 will bring complete information.

Typical of McDonald Company kitchen installations in many Catholic Hospitals and Institutions is the one shown here, at Nazareth, the magnificent new home for children in the Boston Archdiocese. Top view shows the main kitchen serving counter and ranges. From here, food is taken on heated trucks to each of ten serving kitchens, one of which is shown in the smaller photo.

McDonald engineered kitchens are notable for their functional layout and design, which assures economy of movement and ease of operation. Every step of the kitchen routine is carefully considered, receipt of supplies, storage, preparation, cooking, serving, dishwashing and waste disposal. Each detail is planned to save labor and speed service. Whatever your food service problem, whether it is large or small, new construction or remodeling, let us solve it for you.

In institutions as in homes . . . in the new Carney Hospital, in St. Mary's High School . . . expert cooks insist on Gas.

You will find no cleaner method than Gas cooking . . . the only fuel that gives such speed and versatility of its top burners, perfect, even heat for baking and truly smokeless broiling . . . so dependable, too.

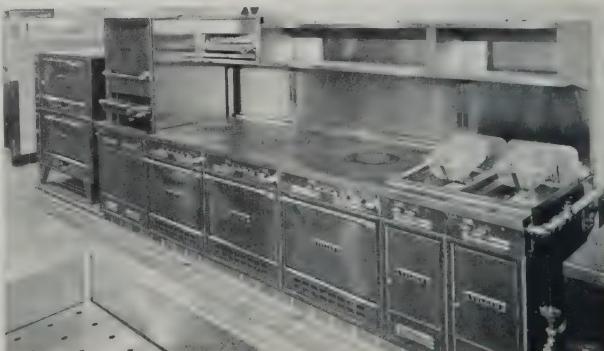

Count on Gas ranges for years of continuous use — modern Gas ranges rarely need repairs or servicing. Burners last a lifetime! Low equipment cost — low operating cost.
